

**DURABLE. FLEXIBLE.
BUILT FOR SCHOOLS.**

DURAserve™

MODULAR SERVING COUNTERS DESIGNED FOR EVERYDAY K-12 FOODSERVICE.

DuraServe™ delivers dependable performance, flexible configurations, and long-lasting construction for busy school cafeterias.

A **CAMBRO** COMPANY

A SERVING LINE BUILT

Consistency & Modularity

- Unified platform: the same depth and coordinated heights across all counters.
- Build a complete serving line or start with a single counter.
- Easy to mix-and-match Hot, Cold, Heated Shelf, Cold Shelf, and Cashier units.

COMPLIANT

Hot Wells

- Even, consistent heat across every pan.
- Dry operation — no water to fill or drain.

Heated Shelf

- Gentle, even surface heat for pizza, sandwiches, and grab-and-go items.
- Clean, modern black glass presentation.

Finishes & Tops

- Multiple top surfaces: stainless, solid surface, or quartz.
- Choice of stainless, laminate, or premium wood grain finishes.

- Fully welded stainless steel cabinet for long-term durability.
- Solid, institutional grade build designed for everyday school service.
- Smooth, easy-to-clean surfaces.

TO WORK — EVERY DAY.

Cold Wells

- Keeps milk, fruits, salads, and cold entrées safely chilled.
- Reliable coldwall performance for daily use.

Cold Shelf

- Perfect for packaged snacks, smoothies, and bottled beverages.
- Flush, modern merchandising surface.

Guards

- Multiple guard styles for self-serve or full-serve lines.

Lighting & Heating

- Bright, clear LED lighting for appealing food presentation.
- Over-food heating for temperature consistency.

Customization

- School colors, graphics, and branding available.
- Additional customization available on request.

Mobility

- Four (4) swivel casters with locks make cleaning and setup easy.
- Move, reconfigure, or service your line with minimal effort.

Hot Food Counter

Even, consistent heat for entrées and sides.

Cold Food Counter

Safe, reliable chilling for fruits, salads, and milk.

Heated Shelf

Gentle surface heat for grab-and-go favorites.

DURASERVE™ IS A MODULAR SERVING COUNTER PLATFORM

designed for the daily demands of K-12 cafeterias. Each unit is built on a durable, easy-to-clean stainless steel foundation with flexible options for hot, cold, and ambient service. Mix and match counters to create a serving line that supports your menu, your space, and your students.

Cold Shelf

Flush refrigerated display for beverages & packaged snacks.

Cashier / Utility Counter

Organized, durable point-of-sale and support station.

3D Rendering

3D configurations and renderings available upon request.

A close-up, slightly blurred photograph of a pizza shop's service counter. Three pizzas are lined up on a black conveyor belt. The middle pizza is a pepperoni pizza, while the others appear to be cheese pizzas. In the background, a cash register and other kitchen equipment are visible, along with a person working behind the counter. The lighting is warm and focused on the pizzas.
